HAPPY **PRODUCTIVE**

PROJECT MISSION: Identify songs on FPM[†] that facilitate student production.

Whether you're using **short songs to initiate and time transitions** or **music that supports productive, on-task behavior**, we'd like you to join the SP14 collaborative.

Just send me a playlist of songs you downloaded from FPM that had a positive impact on your students when they were on-task. Five songs per list with track title, duration, and volume title info.

To get things started, I created a playlist. Although the songs below are not production songs, they're ideal for procedures and transitions. In Edition 02 of SP14, I'll analyze each of the 5 songs and offer some suggestions for their use.
