

Production Playlists #03: Piano Jazz

EDITION 04

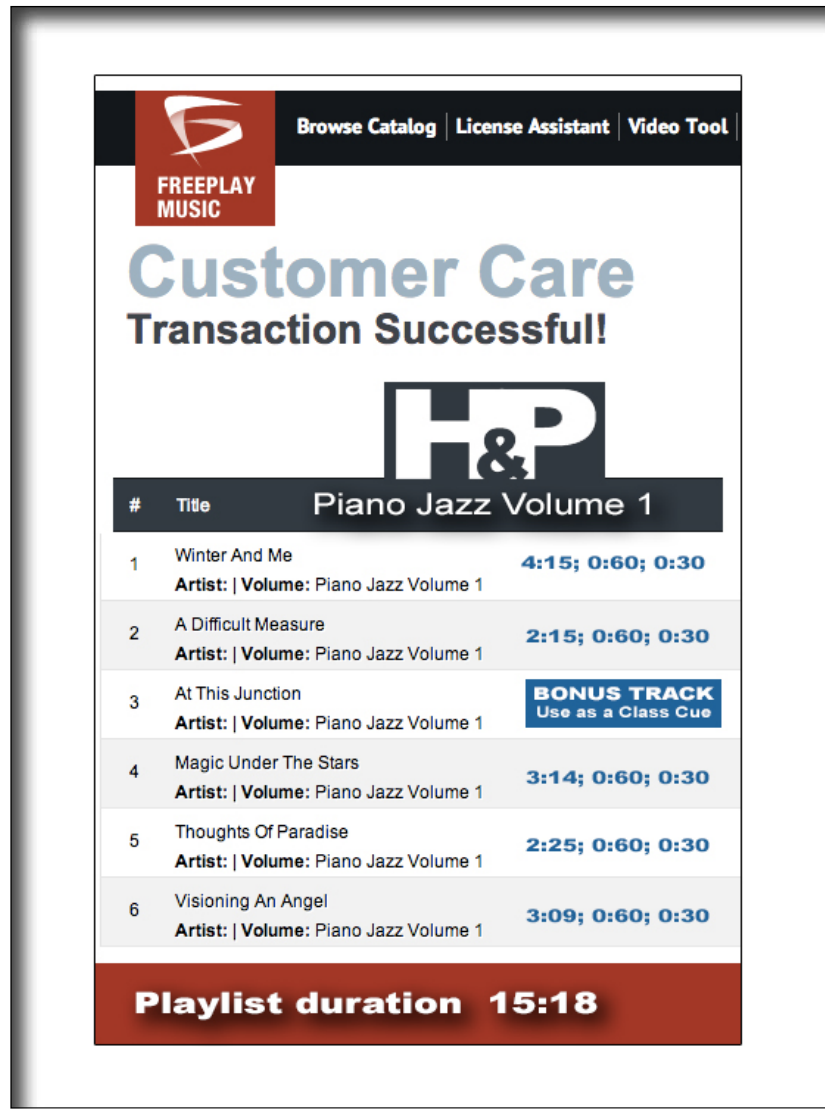

THOUGHT IT MADE SENSE TO POST MY OWN PRODUCTION PLAYLIST.

I was also thinking it might be nice to share playlists as graphics.

After all, we just need the track and volume title info in order to easily find the songs on FreePlayMusic.

It's even possible that students might want to get involved in creating a graphic to represent the teacher's 5-song Production playlist. Could be fun.

Note: The first song in the playlist is somewhat upbeat. [It's got a medium tempo.] If it helps, think of the song as being motivational. The last four cuts are more relaxed.
